

CheckPlus Premium

Avoid costly hiring mistakes by using criminal background information that's verified at the source and FCRA-compliant.

Know who you're about to hire with nationwide criminal background searches

Don't let a bad hire cost your business untold dollars in lost productivity, wasted training, lost customers, and resources needed to recruit a replacement. With CheckPlus Premium, iiX's premier employee screening tool, you'll have access to critical background information for making informed hiring decisions and providing a safe workplace.

CheckPlus Premium provides nationwide county-level criminal record searches based on a person's address history and Social Security number and draws upon the most current criminal history information available. The screening tool verifies all data directly at the source for accurate results and fewer false positives. You can be confident each search has been developed with Fair Credit Reporting Act (FCRA) compliance in mind.

If you're looking for a slightly less involved search for hiring lower-sensitivity positions or as an ongoing background search program, we also offer CheckPlus.
