

Motor Vehicle Reports (MVRs)

Quickly and easily get MVRs from any state in a uniform, easy-to-read format — complete with translations of violation codes

Don't wait days to learn of adverse activity on the MVRs of drivers you're about to hire — or those you currently employ.

Through iiX's direct connections to all 50 states and the District of Columbia, you can instantly obtain MVRs using any one of our convenient ordering options.

Our proprietary MVRs are easy to read and compare, with consistent formatting from state to state and translations of violation codes in plain English. We can customize your report to include a standardized violation score derived from our MVR violation model (or your own model). And we can include key driver data, including medical certificate and driver's license expiration, as well as license status, class, and type, on request.

We also provide a convenient duplicate check process to reduce unnecessary MVR requests and the associated expense. DriverSafe® Plus users can schedule MVR requests in advance, which makes it even easier to administer your compliance program.

With MVRs from iiX, you'll:

- spend less time researching violations
- make faster, more informed employment decisions
