

Legal Zero Allocations

# Why over-allocate? Setting aside zero dollars is an option.

## Pioneers of the Legal Zero allocation

Your Medicare compliance program can benefit greatly from experienced legal insight. Nowhere is that more evident than in our Legal Zero program. All too often, a workers' compensation claim will go without the proper Medicare Secondary Payer (MSP) legal analysis, and as a result, an unnecessary Medicare Set-Aside (MSA) will be funded that wasn't required initially. Let our team of attorneys evaluate your denied claims to ensure you aren't over-allocating MSA dollars.

## Proper examination can save your company a bundle

We are dedicated to eliminating unnecessary expenses in your compliance programs with a 87 percent CMS approval rate for Legal Zeros. Under the MSP guidelines, there are certain instances in workers' compensation settlements, even when future medicals are being closed, where setting aside no money (zero dollars) is appropriate. Legal Zero allocations are an option for most disputed and denied claims to ensure you aren't allocating MSA dollars unnecessarily.

Let us evaluate your case whenever you settle a claim with a Medicare beneficiary that involves a denied component. Our services include:

- legal and medical advocacy
- case-specific arguments
- case evaluation
- issue spotting
- identification of key arguments
- appeal to the next level (if and when necessary)
