

# Reliable Business Data is a Pillar of Profitability

**50%**

of businesses fail in the first five years.

**Reliable Business Information Matters.**

**50%**

of high-level industry codes are typically inaccurate in an insurer's book.

**Accurate classification codes matter.**

**Monoline commercial auto insurers** need to know key elements about a business to assess risk and determine whether to cover it. Reliable business information is essential in commercial auto underwriting and rating.

Verisk's Commercial Auto Firmographics provides multi-faceted, verified data fast. It's an easy, simple-to-access solution designed to provide trusted information to help insurers improve rating and reduce expenses.

## Fast and easy delivery

The data is quickly delivered directly into your systems through our API. The data is also available for one-time renewal book updates.

**We provide immediate data on eight fields specific to commercial auto, including:**

**Business information (name and contacts)**

**NAICS (up to 8 digits) and SIC codes**

**Credit score and relative credit grading**
