1-Aug-24	0.5	0.5
30-Jul-24	2.0	3.0
29-Jul-24	0.5	0.5
24-Jul-24	0.5	1.0
23-Jul-24	0.5	0.5
21-Jul-24	1.0	1.5
20-Jul-24	0.5	0.5

Date	At Property Address	Within 1 Mile
	Total Rainfall (in.)	Total Rainfall (in.)
18-Jul-24	0.1	0.5
17-Jul-24	1.0	1.5
12-Jul-24	0.1	0.5
7-Jul-24	1.0	1.5
5-Jul-24	0.1	0.5

This report documents the daily total rainfall at the property address and the maximum accumulated rainfall within 1 mile of the property. Events are shown over a twelve-week period before and after the date of loss. A significant rainfall event is defined by 0.5" of daily total rainfall.

This report is powered by the Benchmark® natural hazard history database. To learn more about the information in this report, please visit https://www.verisk.com/Benchmark

Benchmark® Rainfall History Report

Description of Rainfall Measurements			**Damaging rainfall values**		
Measure	Units	Description	High	Moderate	Low
Total Rainfall	Inches	Indicates total rainfall over the calendar day. Heavy rainfall can overwhelm building and drainage systems, causing roof leaks, surface water intrusion, and flash or river flooding. Moderate damage occurs when total rainfall is between 1-3".	>3"	1-3"	<1"

Benchmark® Weather History Reports

Benchmark® data has been demonstrated to align with the occurrence of severe weather. We regularly review its accuracy and calibrate our algorithms using industry claims data and other sources of ground-truth to maximize performance. Benchmark® processes high resolution datasets from sources such as radar, numerical weather models, and lightning networks using models and proprietary algorithms developed by our advanced-degreed meteorologists and scientists. We ingest data from the WSR-88D radar network incorporating polarimetric variables to derive the most accurate representation of the weather. At Verisk, we create hazard indices that specifically pertain to the insurance industry and their service partners.

Verisk provides software, data, and analytics for enterprise weather risk management. Insurers can apply these solutions to help improve customer service, achieve more accurate risk selection, and reduce claims cycle time. Manufacturers, distributors, and retailers rely on Verisk to accelerate revenue growth through more accurate forecasts of product demand and to promote stable operations by helping mitigate supply chain risk.

Product Notice

This report may be used for the specific address of interest and may not be used for any other address or location. This report is intended for the sole use of the customer(s) named herein. Each customer agrees not to copy, distribute, disseminate, transfer, assign, license, or in any way or form make this report and/or the data available to any third party for any use whatsoever, without the expressed written consent of Insurance Services Office, Inc.
