Today's Agenda

- 1 The Xactimate transition
- 2 A connected workflow in action
- 3 Fireside chat and your questions
- 4 Next steps

The Xactimate transition

Beginning in January 2027, Xactimate Standard and Xactimate Professional will transition to a unified Xactimate license.

A unified license with the capabilities currently available in Xactimate Professional.

Current Standard users

Gain the capabilities currently available in Professional. The price will increase at the end of your current subscription term.

Current Professional users

No changes to your subscription. No price changes in 2027.

What's included in your unified Xactimate license

The capabilities currently available in Xactimate Professional, with access to desktop, online, and mobile.

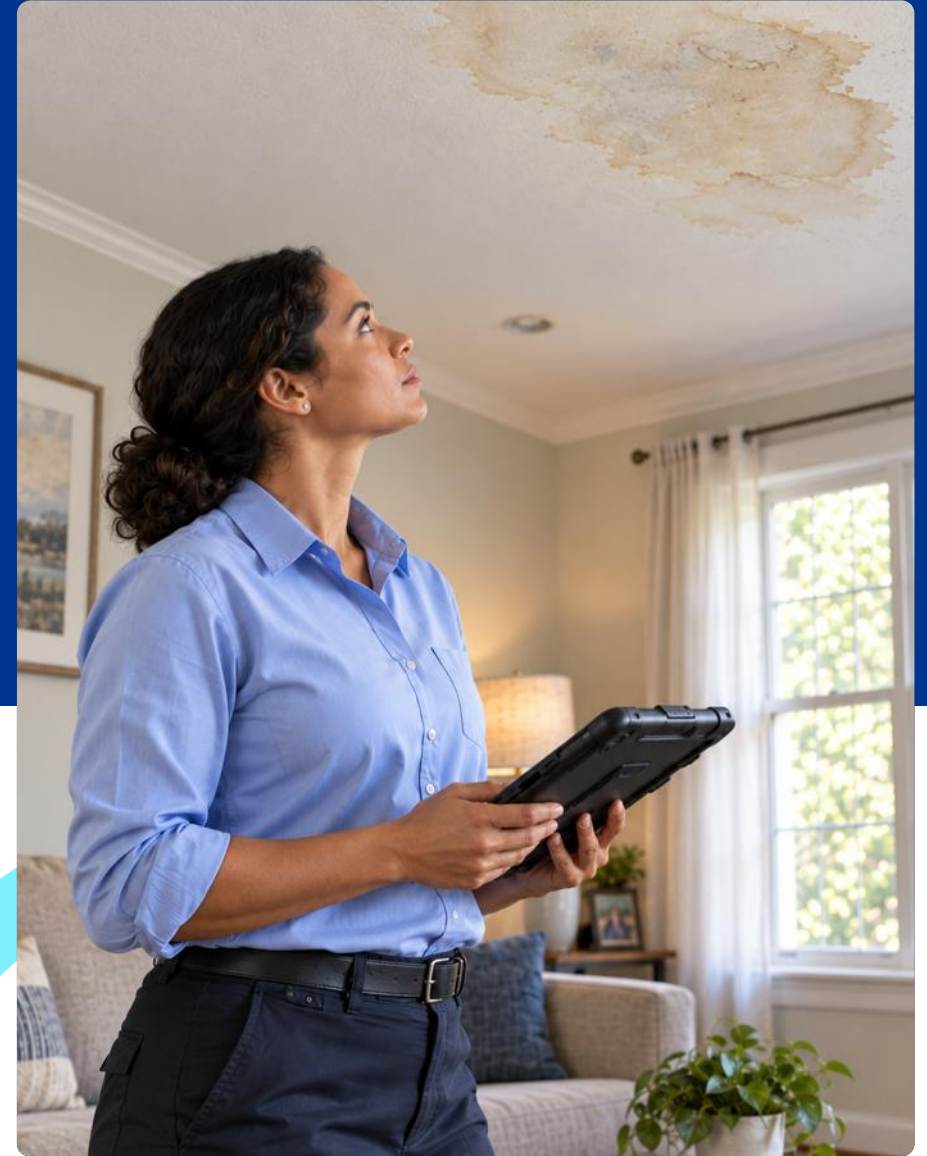

- **Desktop:** Build and refine detailed estimates, with the flexibility to work offline.
- **Online:** Access and update estimates wherever you have an internet connection.
- **Mobile:** Capture measurements, photos, and loss details while estimating on-site.

More value across your workflow

- **Cloud syncing:** Move between platforms and continue working with your estimate information.
- **Time & Materials estimating:** Create estimates using labor, material, and equipment components.
- **XactRebuild:** Automatically generate a starting rebuild estimate from water mitigation data for review and refinement.
- **Sketch AR:** Capture room measurements directly into Sketch using augmented reality on a supported mobile device.

Xactimate Workflow

- Assignment
- On site
- Complete

Desktop

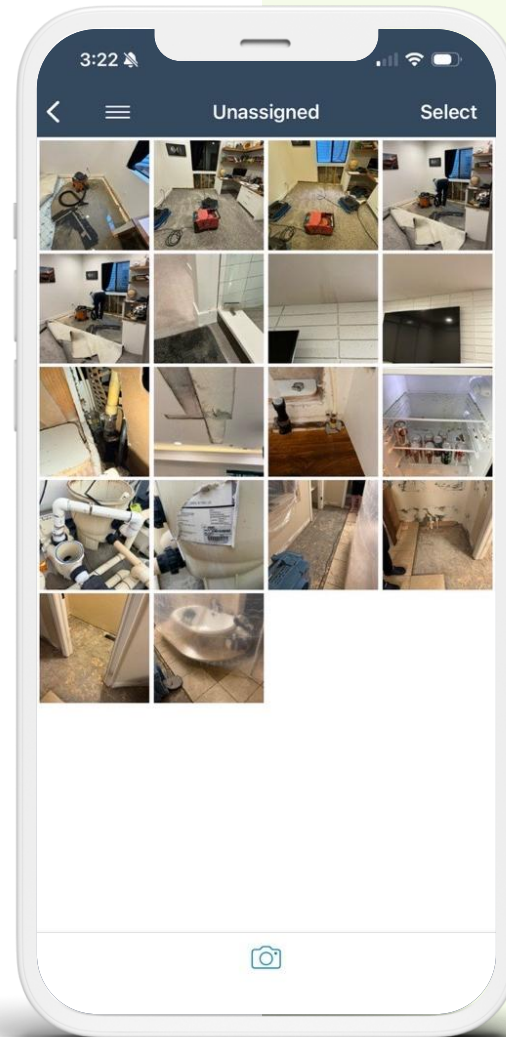

New project

- Complete claim info
- Request third-party data
- Prepare to go on site

The screenshot displays the Xactimate desktop application interface. On the left is a dark sidebar with a menu containing: 'Grand Total \$0.00', 'Coverage Limits', 'Summary', 'Claim Info' (highlighted with an orange bar), 'Estimate', 'Photos', 'Documents', 'Time and Materials', 'Tools', and 'Complete'. The main window has tabs for 'Insured Info', 'Coverages & Loss', and 'Parameters'. The 'Insured Info' tab is active, showing a form for 'Insured Info' with fields for Name (Darren Knight), Email (dknight@email.com), Address Type (Property), Street (123 Main St), City (Lehi), State (Utah), Zip Code (84043), Country (USA), Latitude (40.388303), Longitude (-111.846772), Phone Type (Home), and Phone # ((801) 555-1234). There are checkboxes for 'Primary Address' and 'Primary Phone'. Below this is a 'Dates (Mountain Daylight Time)' section with fields for Date of Loss (9/16/2026 3:01 PM), Date Entered (9/22/2026 3:00 PM), Date Received (9/17/2026 3:01 PM), Date Contacted (9/18/2026 3:02 PM), and Date Inspected (M/D/YYYY H:MM AM). There is also a checkbox for 'Inspection not performed'. At the bottom of the sidebar is a 'Save and Exit' button. A small copyright notice at the bottom of the sidebar reads: 'Xactimate® is a registered trademark of Xactware Software, Inc.'

Frequently asked questions at registration

What you're asking

Timing and transition

Subscriptions and renewals

Capabilities

Getting started

Why is Verisk transitioning Xactimate Standard and Xactimate Professional into a unified license?

What capabilities will be included with the unified Xactimate license, and what additional capabilities will current Standard users gain?

***How will pricing change when
Xactimate Standard and
Xactimate Professional transition
to a unified Xactimate license?***

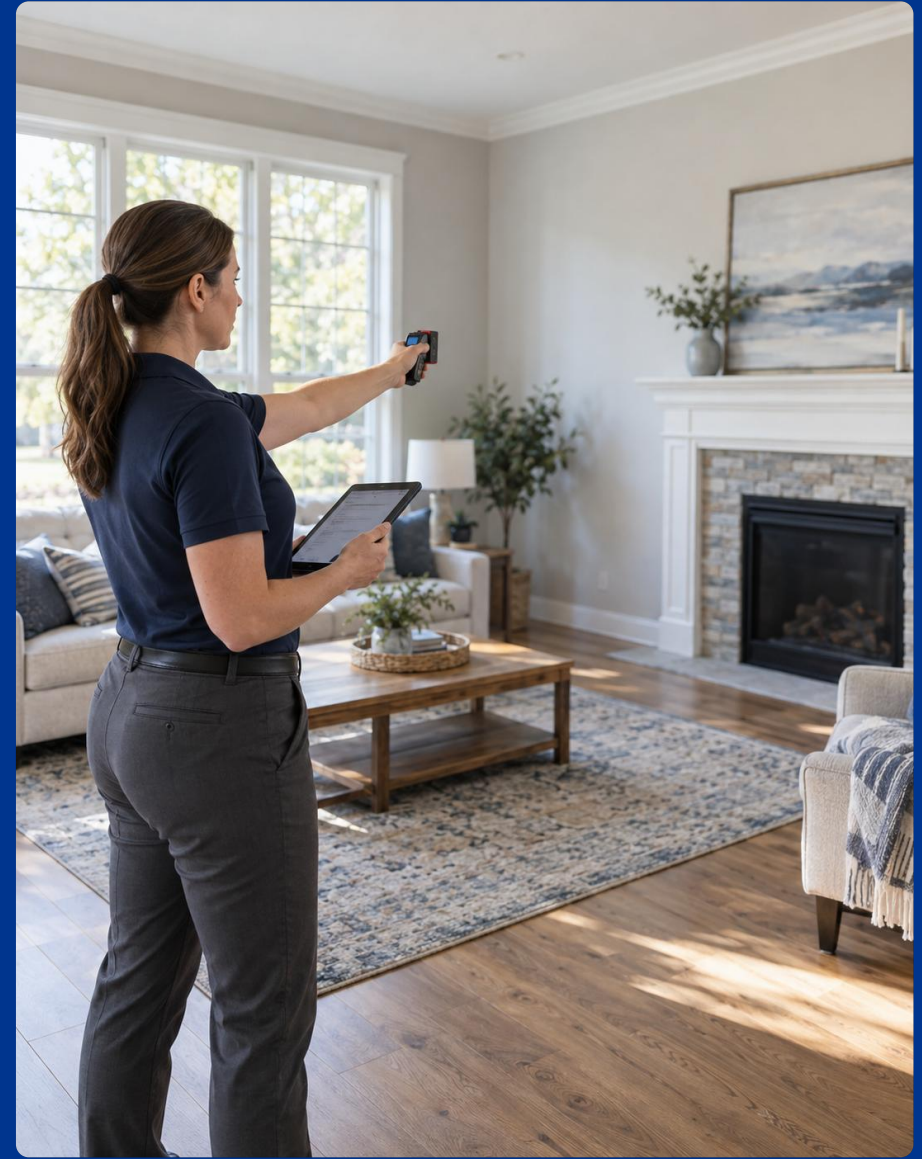

What will happen to existing subscriptions, prepaid terms, and upcoming renewals?

Will customers transition automatically?

Will monthly, three-month, or other short-term subscription and payment options remain available?

Thank you!

Please complete the post-webinar survey.
