Improved customer experience

Boost customer satisfaction by eliminating user errors and streamlining the claim review process. XactXpert enables quicker claim closures, allowing you to help policyholders swiftly get back on their feet.

Key features to speed up and improve the estimating experience

Real-time rule deployment: Instantly enable or disable rules based on the specific needs of each claim organization-wide.

Immediate feedback: Fine-tune your estimates on the go with real-time alerts through Violations, Warnings, and Cautions:

- Violations must be cleared by adjusting the estimate.
- Warnings can be bypassed with a note.
- Cautions require no action.

Fully customizable: Choose from hundreds of preset and customizable rules and adjust them to fit your needs.

Custom reports: Set up dashboard reports to track XactXpert rules including trends for alerts based on your estimating groups, CAT/non-CAT environments, types of loss, and much more.
