

# PPW

## Streamline property maintenance, from order to invoice

Boost your single-family rental operations with PPW—the industry’s leading workflow management platform for property preservation and maintenance services.

## Smart order management

Take control of spending with customizable service frequency and cost limits. Maintain compliance while keeping operations flexible with property-level controls for recurring services.

## Mobile photo management

Ensure accountability with tamper-proof photo validation, GPS verification, and advanced QC tools, including AI-powered analysis of grass cut completions, while streamlining documentation through our user-friendly mobile app.

## No-code automation

Streamline operations with our powerful System Rules Engine. Create custom workflows without coding, for rapid process automation and improved efficiency.

### Why choose PPW™?

- Reduce compliance risks
- Streamline vendor management
- Real-time visibility and control
- Mobile-optimized workflows
