

Let ISO Claims Partners guide you to compliant, cost-effective settlements

We've got the answers to your compliance questions

ISO Claims Partners is here to support you throughout the claim settlement process. Our talented team of Medicare Secondary Payer (MSP) thought leaders, including more than 20 lawyers, is committed to helping you solve Medicare compliance challenges. We're dedicated to providing you with exemplary professional services, data-driven claim-handling advice, and a level of accessibility and customer focus on which you can count.

We view your Medicare compliance like paying taxes—

you must comply, but our expertise can help you avoid unintended errors and costs.

Efficiently address all MSP issues in your settlement agreement

Complete MSP compliance requires not only taking appropriate steps to protect Medicare's interests but also evidencing correct protocols during settlement. Settlement consultation can help when a case doesn't fall under normal workers' compensation Class I or Class II submission thresholds of the Centers for Medicare and Medicaid Services (CMS) or deals with liability/no-fault auto.

Our services can assist in outlining conditional payment identification, setting up settlement fund retention, and coordinating repayment to Medicare. Furthermore, regional settlement practices don't always satisfy Medicare's demands and, consequently, can leave the third-party administrator, insurer, carrier, and/or employer exposed. Settlement consultation can assist you in avoiding the pitfalls that create MSP exposure.

Our MSP advisors analyze the claim, outline key strategic objectives, and execute a workable action plan to ensure compliance every step of the way. We provide:

- strategic planning with the client by phone or in person
- discussion and correspondence with the opposing counsel, if appropriate
- review and development of MSP-compliant settlement language
