

Verisk Inventory of Greenhouse Gas Emissions¹

2017–2020

	2017 Location- based	2017 Market- based	2018 Location- based	2018 Market- based	2019 Location- based	2019 Market- based	2020 Location- based ²	2020 Market- based ²
Revenue (\$ million)	2,145.2	2,145.2	2,395.1	2,395.1	2,607.1	2,607.1	2,784.6	2,784.6
Employee Full-Time Equivalent (average)	6,661.8	6,661.8	7,652.5	7,652.5	8,950.0	8,950.0	8,757.9	8,757.9
Scope 1 (MT CO ₂ e)	4,607.9	4,607.9	6,830.8	6,830.8	8,721.2	8,721.2	2,607.5	2,607.5
Scope 2 (MT CO ₂ e)	11,776.0	1,427.7	12,954.6	431.3	11,649.1	138.6	9,539.2	431.5
Scope 3 (MT CO ₂ e)	8,152.2	8,152.2	9,775.6	9,775.6	9,998.4	9,998.4	1,927.6	1,929.3
Scope 1,2,3 Total (MT CO ₂ e)	24,536.1	14,187.8	29,561.0	17,037.7	30,368.7	18,858.2	14,074.3	4,968.3
Carbon Offsets Available	n/a	26,292	n/a	21,499.0	n/a	39,461	n/a	38,102
Carbon Offsets Retired	n/a	(14,188)	n/a	(17,038)	n/a	(18,859)	n/a	(4,969)
Emissions Total	24,536.1	0	29,561.0	0	30,368.7	0	14,074.3	0

1. [See the external assurance report](#) prepared by an independent third party.

2. According to CDP Technical Note: Accounting of Scope 2 emissions, the location-based method quantifies “Scope 2 greenhouse gas (GHG) emissions based on average energy generation emission factors for defined locations, including local, subnational, or national boundaries.” The market-based method quantifies “Scope 2 GHG emissions based on GHG emissions emitted by the generators from which the reporter contractually purchases electricity bundled with instruments, or unbundled instruments on their own.”

Notes:

The organizational boundary for each year covers 100 percent of the units then conducting business within the Verisk family of companies. Divestitures and acquisitions were addressed as follows:

- The 2017 emissions of seven companies acquired by Verisk during 2017 were added for the months indicated: Healix (March through December 2017), Fintellix (April through December 2017), MAKE (June through December 2017), Geomni (July through December 2017), G2 Web Services (September through December 2017), LCI (September through December 2017), and Rebmark (December 2017).
- The 2018 emissions of five companies acquired by Verisk were added for the months indicated: Service Software (January through December), PowerAdvocate (January through December), Marketview (February through December), Business Insight (March through December), and Validus-IVC (July through December).
- The 2019 emissions of four companies acquired by Verisk were added for the months indicated: Keystone Aerial Surveys (August through December), Property Pres Wizard (September through December), Build Fax (November and December), and Genscape (December). Emissions for Verisk Retail are reported only through the month of its divestment.
- The 2020 emissions of one company acquired by Verisk were added for the months indicated: Franco Signor (October through December). The 2020 emissions of two divestments are not included: the aerial imagery sourcing group formerly associated with Geomni, and the compliance background screening business known as Intellicorp.

Scope 3 reporting is optional. Verisk’s annual Scope 3 inventory totals represent emissions from business air travel and downstream leases. The percentage attributable to business air travel is 99.7 percent (2017), 100 percent (2018 and 2019), and 98.6 percent (2020).

Totals are rounded. To find our emissions for 2015 and 2016, please see Verisk’s 2016 and 2017 *Corporate Social Responsibility Reports*, respectively.
