Supported

- Ongoing support for life of relationship
- Support includes operations, IT, product
- Open and responsive process
- Work with a dedicated point of contact
- Training available on request as needed

Onboarding with Verisk can be as easy as...

The Verisk advantage

We know onboarding a new technology can be stressful. When you onboard a Verisk commercial lines underwriting solution, you can be confident knowing you'll be working with a team of respected experts with years of experience and hundreds of collective implementations under their belts.

Our engagements are tailored specifically to the needs and IT infrastructure of your business. We can onboard:

- a mainframe-centric organization
- a distributed/on-premises organization
- a cloud-based organization

Does your IT operation require code and documentation, or would you like us to get more hands on?

Whatever your onboarding needs, we're here to help.

With a deep understanding of insurance technology and over 50 years of experience managing large insurance datasets, Verisk is uniquely positioned to help ensure a smooth onboarding process and provide continued, responsive support for the life of our relationship.
