

Exception reporting and analytics

Aspect
EliteLP™

Your easy-to-use, quick ROI, EBR for the retail enterprise

- ▶ Easy-to-use solution
- ▶ Powerful reporting and alerts
- ▶ Dedicated user community
- ▶ Ultra-Fast ROI and low cost-of-ownership
- ▶ Modules offer expanded functionality
- ▶ Enterprise-level performance
- ▶ More than 800 pre-defined reports and queries
- ▶ Patented technology

Aspect EliteLP is an Exception-Based Reporting (EBR) solution that uses powerful data-mining techniques to quickly analyze vast amounts of historical transaction data created at your Point-of-Sale. **Aspect EliteLP** identifies “exceptions” to normal POS activities, exposing possible employee theft, fraud, or training and operational deficiencies.

Aspect EliteLP is regarded as one of the easiest-to-use systems as a result of its flexible and expandable architecture; meeting the needs of all types of retailers, including Specialty, Apparel, Sporting-Goods, Off-Price, Restaurant, Ticketing, and more.

Optimized for your “desktop and mobile” devices.

Note: iFind™ required for optimal mobile performance.

Aspect EliteLP modules to maximize your investment

Powerful add-on modules bring tailored functionality

- ▶ Leverage multiple or unique transaction-types— retail, food and beverage, ticketing systems and omni-channel
- ▶ Integrate to third-party systems—case management solutions, DVR/CCTV systems and LDAP user-authentication
- ▶ Expand your enterprise reach—credit-card encryption, inventory variance reporting and CRM system reporting

The base functionality of **Aspect EliteLP** brings significant power to LP and risk-management professionals. Additional modules enable retailers to leverage their investment to fully maximize ROI and to decrease total cost of ownership.

The transaction, integration, and expansion modules of **Aspect EliteLP** bring strategic functionality to the enterprise by providing advanced tools and solutions that help tie strategies together, whether they include hardware, software, data-systems, or a combination thereof.
