

# Next-gen analytics for the retail enterprise

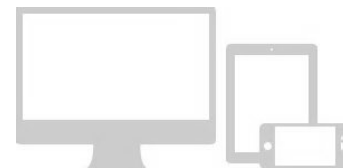

## Web-based **unique and proprietary** datasets

- ▶ Advanced analytics by industry innovator
- ▶ Expandable data sources
- ▶ Leverages data—enhanced by Verisk
- ▶ Unified experience for the entire enterprise
- ▶ Dashboard-based KPIs and trend-data
- ▶ Robust, next-gen visualizations
- ▶ Powerful alerting engine
- ▶ Actionable data with feedback-loop
- ▶ Profit-enhancement insights
- ▶ Customer behavior analysis
- ▶ Real-estate location insights
- ▶ Web based/SaaS solution

At the heart of the (n)act solution is the ability to bring many data sources together in one platform designed to facilitate reporting, alerting and analytics across related enterprise data-sets.

Verisk Retail's LP expertise, combined with customer and market analytics, provides deep, unique, and proprietary insights that nobody else can provide—delivered via (n)act.

Optimized for your “desktop and mobile” devices.
