RE: Compliance Notice #1

Dear Sir/Madam,

Our records indicate that your company may not be in compliance with Rhode Island General Law Chapter 27-57.1, the Rhode Island Medical Assistance Intercept Act which became effective on July 1, 2012. The Act **requires all insurance companies that do business in Rhode Island** to participate in a Medicaid data match program called the Medical Assistance Intercept System (MAIS).

MAIS will electronically data match Rhode Island Medicaid recipients with liability and workers' compensation insurance claims. MAIS is designed to intercept payments of \$500 or more for reimbursement to the State of Rhode Island's Medicaid Program.

Registration is easy and MAIS provides an interactive "Lookup" feature that is available on the MAIS website (<http://www.ri-mais.com>) after you register. Insurance companies have the option of doing either a data match through the Insurance Services Office, Inc. (ISO) *ClaimSearch* or utilizing the MAIS interactive lookup system. If your company already subscribes to the ISO *ClaimSearch*, there is no additional cost to participate. Your company can simply authorize ISO to share the claim data you index by signing a data authorization form.

To participate in the MAIS program through ISO *ClaimSearch*, please contact the ISO Customer Support Center at 1-800-888-4476, email info.claimsearch@iso.com, or visit www.iso.com/medicaid.

Should you have any questions, please contact MAIS Customer Service at 1-800-908-6247, email contact@ri-mais.com, or visit www.ri-mais.com. Your prompt attention to this matter would be appreciated.

Sincerely,

Erin Casey, Esq.
Senior Legal Counsel, EOHHS
