

# Streamline reporting with standardized MVRs

## Motor Vehicle Reports for Employers

Managing a fleet of any size or composition, demands prompt access to uniform, easy-to-read MVRs.

Real-time MVR delivery can help safeguard your business and save you time researching violations, so you can focus on hiring, onboarding, and coaching your drivers.

### The reports you need, how you need them

Our proprietary reports are easy to read and compare, with consistent formatting from state to state and plain-English translations of violation codes. Customize your report to get a standardized MVR violation score derived from our model—or yours. You can be confident each search has been developed with Fair Credit Reporting Act (FCRA) compliance in mind.

### Manage drivers, identify trends

#### DriverAdvisor® monitoring:

Track new violations and changes in license status. See an overview of monitored drivers and those eligible for monitoring. Easily compare MVRs side-by-side for drivers with detected activity.

#### DriverSafe® Plus:

Use our paperless tool to analyze MVR data in minutes—even for thousands of drivers. Get analysis of key driver data—medical certificate and driver's license expiration, license status, class, and type.
