

# Reliable, easy-to-use replacement cost estimates for every property in your portfolio

360Value®

# 360Value® provides replacement cost estimates grounded in actual claims experience

## What sets 360Value apart?

- True component-based replacement cost estimates of labor and building materials that are up-to-date and localized, which provides reliable insurance-to-value across the policy life cycle
- Speedy workflow with reliable prefill data
- Seamless integration into virtually any underwriting environment
- Estimates based on real-world loss claims and validated at the local level

## Align your coverage to claims

From underwriting new risks to policy renewal, you can count on 360Value to generate reliable estimates for every commercial property in your portfolio. That's because 360Value estimates account for all costs needed to reconstruct a property to its original condition. We continually update our database with real-time feedback from tens of thousands of contractors and claims adjusters, extensive material and labor cost surveys, and analysis of millions of actual damage repair estimates each year.

## 360Value estimates in ProMetrix— any way you want them

**360Value on demand:** Generate a 360Value estimate in ProMetrix with “five easy pieces” of handy data: Square footage, occupancy, year built, number of stories, and construction class.

**Add on to loss-cost reports:** Ordering an estimated loss-cost report in ProMetrix? Get a 360Value estimate with one click.

**Order multiple reports at once:** If you use our batch upload tool, you can order multiple reports by entering addresses or Risk IDs, from 360Value to the Building Underwriting Report to WaterLine™.

**Built into the Roof Underwriting Report:** A 360Value replacement cost estimate is automatically included as a key part of our Roof Underwriting Report.

## 360Value is easy to use

You can easily integrate the web-based 360Value replacement-cost estimation system into virtually any underwriting environment. The 360Value client services team provides multiple support options, including an account manager who is responsible for ensuring your satisfaction. 360Value includes a context-sensitive help system and online tutorials. A single user interface makes it easy to cross-train agents and underwriters to quote multiple lines of business, including:

- Commercial
- Agricultural
- Condos
- Standard residential
- High-value residential
- Mobile/manufactured homes

## Speed and reliability define today's underwriting process

Your customers demand speed, transparency, and exceptional service. Whether you're selling online, through agents, or using a call center, a positive customer experience starts with detailed property information combined with analytic tools to provide fast and reliable results.

360Value boasts a 99.9 percent uptime record. Updates are seamless and always backwards compatible—no new coding needed from your IT team.

## 360Value is integrated into the Verisk ecosystem of commercial property solutions

### ProMetrix

ProMetrix® provides reports, prefill, aerial imagery, on-site surveys, and modeled data.
